

Product Type: AMR-01 Remote reading water meter

Main Features:

1. Outdoor meter reading: The display screen will be installed outside, which provides a solution of water meter reading without catering into the rooms.
2. Long-term memory Storage: The accumulated water usage data will be saved for over 10 years
3. Error display: The error will be displayed if any output wire is disconnected.
4. Magnetic interference display: The strong magnet will affect the collection of signals from water meters. In this case, the error code will be displayed in the screen.
5. Low battery replacement. When the battery symbol is displayed. The internal battery needs to be replaced.

Main Technical Data:

Working temperature: -10~50°C

Working humidity: ≤85%

Voltage: 4.5V DC (Dry battery 1.5V M X 3)

Quiescent current: ≤10μA

Working current: ≤15μA

Measuring accuracy: ≤0.1%
